

World Thinking Day

Invitation to Present

You're invited to present at World Thinking day!
You and your troop will decide on a country to research.
Learn about their culture, traditions, history, food, art, or agriculture. What do people do for fun? What do they eat? Do they have special celebrations? What are popular modes of transportation? What are popular places and things to do when visiting this country? What is the weather like throughout the year? Do they have Girl Guides in this country? What are some of the things Girl Guides do there?
At the World Thinking Day event, you will have a table to share what you've learned about the country you've researched (posters with images are highly encouraged).
Please have an interactive element at your table for the attendees: a traditional food, a traditional song or dance to learn, clothing to try, a simple craft, or something else creative to make your table fun and engaging!
Read the Cultural Connection Without Cultural Appropriation handout before planning your information table.
